

How To Build a Snowman

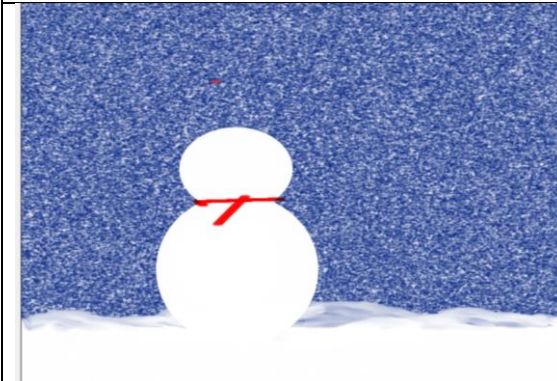

By I Hussain

First make a nice big ball for his body.

Next make a smaller ball for his head.

Then you can chose any colour for a scarf around his neck.

After get two stones for his eyes and a carrot for his mouth.

Then get three twigs. One for the mouth and two for the arms.

After that add a hat for his head.

Finally, get three stones for his buttons.

What a beautiful snowman!
