

Internet safety!

Give your self a nickname when you are messaging others and don't send messages to strangers!

Do not start talking to people that you don't know because you may not know if they are a hacker!

Make sure that your computer or laptop has anti virus so your computer cannot be hacked!

Always be SAFE and report CYBER BULLYING!

Do not say yes to them if they say let me send you a video because the video might be dangerous!

When you are online playing with somebody never give out your personal information to other people!

If there is something that has upset you online, then always remember to tell an adult immediately!
