

GUESS THE PICTURE

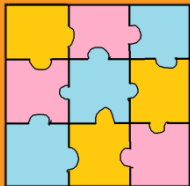

DESIGNED BY M ALI

Guess the Picture:

What is my game about?

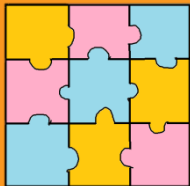

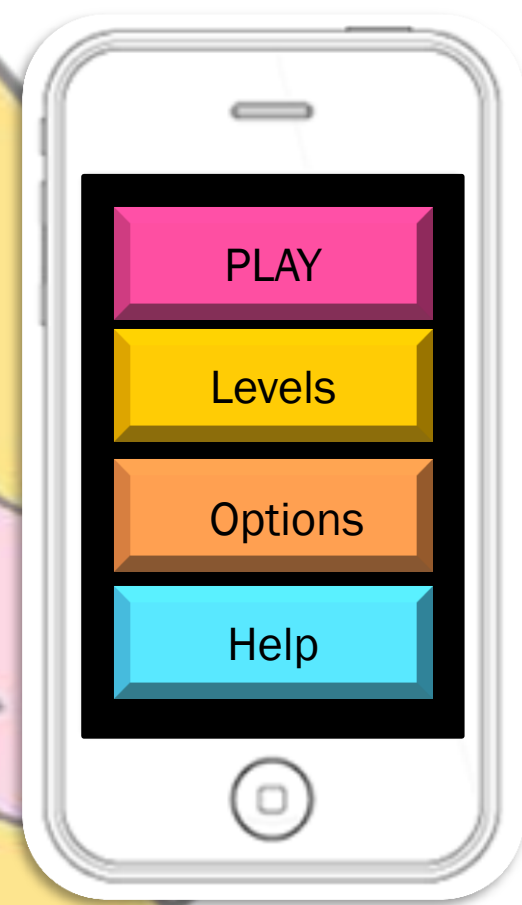

- My game is a fun, easy app which both children and adults can play.
- The game will show a picture which will be covered up .
- The picture will be revealed, piece by piece.
- Below the picture will be icons with different names of objects, places, etc.
- The player will have to choose which icon is the correct picture, the levels get harder as you play more.

Front screen of my app:

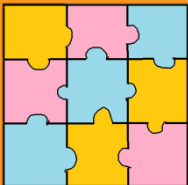

What does it show?

- My app will show four buttons: Play, Levels, Options, Help.
- These will be on the front screen of my app, therefore the player can use whatever button needed.

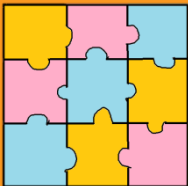

Levels

- The levels button will show you what level you are on
- You will be able to select a different level if you choose to
- The levels will be in different groups:
- Easy
- Medium
- Hard

Options

- The option button can lead you to somewhere else like Home, Menu and Shop
- The shop is where you can buy things like hints and coins as you have to get as many coins as possible to get a new high score
- You gain coins as you guess each picture

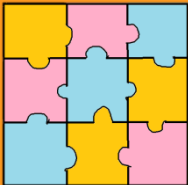

Help

- The help button will help you if you are stuck or don't know what to do
- It will tell you how you play if you aren't sure.

WHY SHOULD YOU DOWNLOAD MY APP?

- Look no further than my app because it is fun to play and is the latest craze.
- It is the best game ever and is played by many people around the world.
- Most of all, **it is free!**
