

The Science Quiz

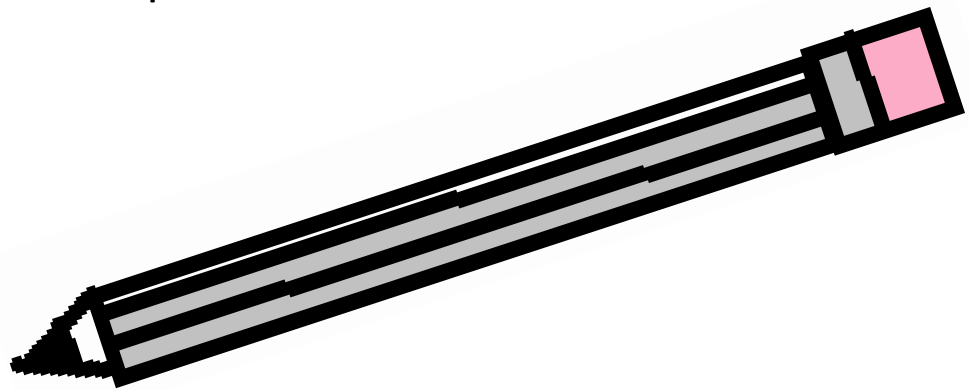

By A Fatima

What does my app do?

The Science Quiz helps students who are struggling with Science. It includes:

- Tutorials and lessons of many science topics
- When you have mastered those topics, there is a quiz which measures your understanding of the topics according to your marks
- Includes methods of experiments and the science behind it so that you can understand the topic a bit more

What do my buttons do?

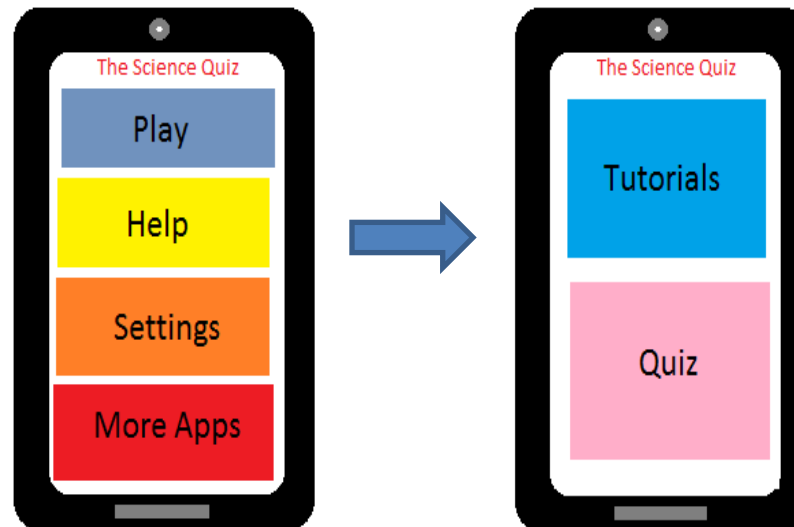

My app has four buttons which help you explore the game:

- Able to play the game
- Set your hardest levels
- Access the help button which help you explore the game with no difficulty

What does my first button do?

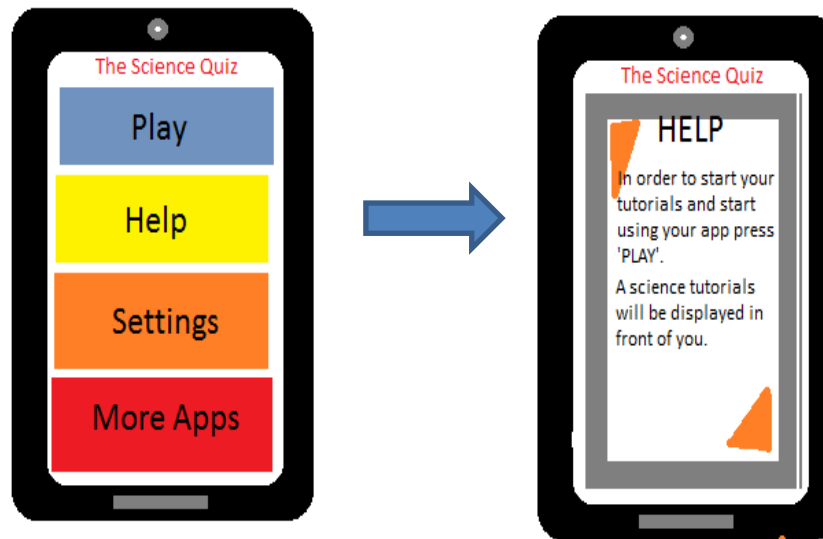

Once you press the first button [which is 'PLAY'] you are sent to two buttons which are 'Tutorials' and 'Quiz'. They both lead to the main structure of the game which give you many topics, then a few tutorials and experiments you could try out. Then you are lead straight to the 'Quiz', which presents you a quiz on the same topic you have been taking tutorials about.

What does my second button do?

Once you press the second button which is 'HELP', a mini PowerPoint is presented to you; it helps you explore and play the App with confidence and no difficulty.

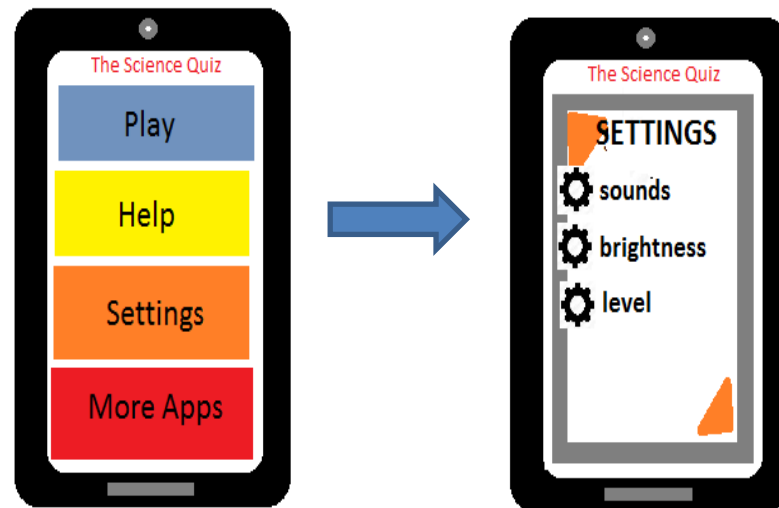

It presents how you start, finish, find the topic that you are willing to take and save your score etc.

What does my third button do?

Once you press the third button which is 'SETTINGS', options will be displayed on the screen. This help you enable the app's settings and options and help you feel comfortable with the app's options and levels. This includes:

- Sounds
- Levels
- Brightness Level

Why should you buy the app?

You should buy 'Science Quiz' because it helps you understand some topics and makes you understand what happens behind most experiments. Additionally, it's free, fun and easy to play and explore. The app has specific information on how to get around the app on the 'HELP' button; it also is modern and smart because you can watch the tutorials again and it gives a chance to note some key information before you take on the quiz.

It gives you a guaranteed result and is easy to download on App Store. The Science Quiz is not only fun, it actually helps you with Science – please take this as a special offer for you to get top marks in your next exam. So, if you are conscious about your grades – look no further because this app gives you the guaranteed result you deserve. So what are you waiting for?
