

GUESS THE COUNTRY!!!

By R Saleem

What does my app do?

- ✓ My app helps children learn about different countries.
- ✓ The way this game works is: it shows a flag and has 4 options to choose from, one of them will be the correct one. If you choose the wrong one it will make a beep sound. This allows children to have another go.
- ✓ This app is for 6+ On the page there will also be a button for clues to help children if they are stuck on a question.
- ✓ There are 3 different buttons to make the level harder.

APP PHONE SCREEN:

The first button is the options button, you can choose the different options to make the level harder.

The second button is the how it works button. this helps you if you don't know how to play.

The third button is the start button.

The last button is the countries button, this will tell you (if you want to) different countries names.

Options button

The options button has 3 different options to choose from (mild, spicy and hot) this lets you choose if you want to make the levels harder for yourself.

If you start at the first option (mild) and you complete all of the questions on mild you will automatically go on the harder level (you wont have to go back on the home page).

How it works button:

The third button is the how it works button. If you don't know how this game works you can press this button and it will tell you.

On every screen of the game there will be a little question mark on the top corner, if you press that button, it will take you to this page.

Start button

The start button takes you into the game!!

START

Countries button:

The last button is the countries button.

This button (if you want to) tells you all the different countries and has a speaker to help you how to say the countries.
